Firm's Areas of Practice:

Thomson Playford is a leading commercial law firm with 39 partners and around 145 lawyers and a total of more than 255 people. The recent merger with Cowley Hearne means that our clients will now benefit from the increased breadth and depth of our legal expertise in the Sydney legal services market. Apart from Sydney, we also have an office in Adelaide and a developing presence in Melbourne. By providing excellent legal services that achieve practical commercial solutions for our clients, we have built and retained strong relationships with Australia's leading businesses and government bodies.

Our lawyers have experience in advising on national and international matters and have developed a model for working seamlessly with other law firms, external advisers and intermediaries.

We always seek to work in a collaborative way with our clients. In our experience, a joint approach to the allocation of tasks and the management of projects assists in the development of a high degree of interaction and communication between the client and the firm and in delivering on expectations.
