Firm's Areas of Practice:

Approximately twenty lawyers now work at Van Till Advocaten and each has an area of personal expertise. They are organized in four practice groups.

Corporate law

Eckhard Mehring, Barend Santen and Hans Vetter manage the Corporate Law practice group, which comprises seven lawyers. In the person of Eckhard Mehring, Van Till Advocaten employs the skills of an experienced German advocate who specialises in German and Dutch corporate law.

Property Law and Administrative Law

Lex de Jager manages the practice group Property and Administrative and Management Law. This practice group comprises five lawyers.

Commercial Agency and Distribution Law

Jaap van Till and Paul Holtrop manage the practice group Commercial Agency and Distribution Law. This practice group comprises five lawyers.

The fact that Van Till Advocaten possesses extensive knowledge and experience on commercial agency law and distribution contract law (including sole agency contracts) has earned it a unique position in the market. For this reason both the Dutch (VNT) and umbrella international association of commercial agents (IUCAB) and their secretariats are associated with our office.

Intellectual Property and Advertising Law

The practice group Intellectual Property and Advertising Law, consisting of three lawyers, is under the management of Jan Willem Fernhout.

The concept of Intellectual Property comprises a great number of statutes that grant exclusive rights to the maker of an intellectual product, primarily copyright, trademarks, design and models rights and patents. The practice group is active in all these legal areas. We provide advice, draw up user contracts, and conduct legal proceedings to deal with infringements of these rights.
